

James Cody Connell, P.E., ASP

Consulting and Forensic Engineer System Engineering And Laboratories (SEAL)

QUALIFICATIONS

- Mechanical Engineer
- Oil Field
- Pressure vessel design and safety
- Machine manufacturing design
- Safety Analysis
- FEA stress analysis
- Chemical processing
- Development plans
- CAD
- Crane and hoisting equipment design
- Quality programs
- Code Compliance
- Test Planning
- Failure Modes and Effects Analysis (FMEA)
- Drone Pilot

EDUCATION

BS, Mechanical Engineering,
Texas Tech, 1987
Oilfield, OJT
MSHA 2021
Continuing Education, On-going

CERTIFICATIONS

- Certified Safety Professional (CSP), Study
- P.E., Professional Engineer:
Texas, #78326
Louisiana, #0039709
New Mexico, #26471
Colorado, #0045511
Kansas, #30701
Mississippi, #35183
Oklahoma, #28160
Alabama, #54960

EXPERIENCE

03/24 - 09/24 Primoris Design and Construction - Mechanical Engineer
08/22 - 03/24 Los Alamos National Laboratory - Safety Matter Expert (SME) Area 55
03/16 - 06/22 Nuclear Waste Partnership - System Engineer
05/14 - 08/15 ThyssenKrupp Industrial Solutions - Mechanical Engineer
01/13 - 02/14 CDI Corporation - Mechanical Engineer
10/12 - 12/12 Enserca Engineering - Senior Mechanical Engineer
12/05 - 02/12 URS, Inc. - Consulting Engineer
01/03 - 08/04 Capco Fabricators, Inc. - Created new engineering department
04/95 - 02/97 LeTourneau, Inc. - Crane Product Engineer, Safety Analyst
Other consulting and engineering positions
